Summary

Data Analyst with experience analyzing large datasets using SQL, Python, Excel, and Power BI to identify trends, improve reporting automation, and resolve data quality issues. Skilled in statistical analysis, KPI reporting, and delivering actionable insights to support stakeholder-driven business decisions.

Skills

Programming & Database: Python, SQL

Analytics & BI Tools: Power BI, DAX, Tableau, Advanced Microsoft Excel, Power Query

Analytical Abilities: Data Cleaning, Data Transformation, Data Modeling, Exploratory Data Analysis (EDA), ETL, Data Validation, Data Quality Analysis, Dashboard Development, KPI Reporting, Business Intelligence, Insight Generation, Descriptive Statistics

Experience

Trainee Associate

July 2025 – Present

Suma Soft Pvt. Ltd.

· Excel · RCA · Logistics · MIS

- Examined **10,000+** logistics records using Excel, identifying delivery exceptions, shipment trends, and operational inefficiencies to improve reporting accuracy and support operational decision-making.
- Investigated and resolved **2,000+** shipment exceptions through root-cause identification, reducing issue resolution time by **25%** and improving operational workflows.
- Collaborated with operations teams to identify recurring bottlenecks and recommend process improvements, enhanced operational efficiency.

Data Analyst Intern

July 2024 – Feb 2025

UV Technocrats, Erandwane

· Power BI · SQL · Python · Excel · DAX · EDA

- Cleaned, transformed, and validated **5,000+** records using SQL, Python, Excel, and Power BI, applying ETL and exploratory data analysis (EDA) techniques to improve data quality and uncover actionable business insights.
- Designed and developed interactive Power BI dashboards with KPI-driven reporting, enabling stakeholders to monitor performance, identify trends, and support faster, data-driven business decisions.

Projects

Financial Analytics Dashboard | Excel, SQL

Mar 2026 – Apr 2026

- * Analyzed **4,000+** financial transactions across multiple business dimensions, identifying profitability trends, regional performance, sales pipeline status, and income distribution to support strategic business decisions.
- * Performed data cleaning, validation, KPI reporting, and financial trend analysis, enabling **25%** faster identification of revenue and profitability trends while improving reporting accuracy through automated visualizations.

Healthcare Analytics Dashboard | Power BI, Python

Feb 2026 – Mar 2026

- * Analyzed **25M+** healthcare records to uncover patient admission patterns, specialty demand, and treatment trends, enabling stakeholders to identify high-volume service areas and support data-driven resource planning.
- * Developed interactive executive dashboards that transformed complex healthcare data into business-ready insights, reducing manual reporting efforts and enabling faster evidence-based decision-making.

Awards & Certifications

- **Microsoft Certified: Power BI Data Analyst Associate (PL-300)** – Validated expertise in Power BI, DAX, Power Query, data modeling, ETL, and KPI dashboard development.
- **Cisco Data Analytics Essentials (2026)** – Learned data collection, cleaning, analysis, and visualization using industry-standard tools.

Education

B.Tech in Computer Science & Engineering

Sinhgad Institute of Technology, Lonavala

2021 – 2025

CGPA: 7.10/10
